

SUMMARY

AI Engineer specializing in LLM-based agents, RAG pipelines, and enterprise AI deployment. Experience delivering production systems for banking and multinational clients across AWS, Azure, and Google Cloud, covering the full lifecycle from prompt engineering and agent integration to CI/CD and monitoring.

EDUCATION

University of Seville Sevilla, Spain
Bachelor in Software Engineering 2019 - 2023

Polytechnic University of Madrid Madrid, Spain
Master in Artificial Intelligence 2023 - 2024

EXPERIENCE

Hiberus Sevilla, Spain
AI Engineer Aug 2026 - Present

- Delivering production-grade conversational AI solutions on AWS for a leading European banking client.
- Developing backend and integration services that adapt AI agents to client-specific business and UX requirements.
- Implementing agent protocols (AG-UI) and MCP-based tooling, owning CI/CD across cloud environments.

Deutz Global Service Center Badajoz, Spain
AI Engineer Jan 2026 - Aug 2026

- Led AI and IT automation strategy as sole technical bridge between Spain office and German HQ.
- Designed an AI-powered Invoice PreCheck system using LLM-based document classification and routing.
- Built Python automation pipelines via Microsoft Graph API across shared enterprise mailboxes.
- Integrated AI automation layers with SAP ERP systems using Azure and CI/CD containerized environments.

Calimaco Madrid, Spain
Prompt Engineer & AI Developer Oct 2024 - Dec 2025

- Architected LLM-based and RAG pipelines using Python, LangChain, OpenAI, and Google Vertex AI, reducing manual workflow intervention.
- Engineered prompt optimization frameworks improving reliability and consistency across production deployments.
- Implemented end-to-end AI monitoring and evaluation systems ensuring production-grade performance and security.

Accenture Sevilla, Spain
RPA and AI Developer Mar 2023 - Jul 2023

- Engineered a Generative AI-powered MFA system reducing unauthorized access incidents in enterprise environments.

SKILLS & CERTIFICATIONS

Technical Skills:

Python · LangChain · OpenAI API · Google Vertex AI · AWS · Azure · RAG Pipelines · MCP · AI Agents · CI/CD
