

SUMMARY

AI Engineer specializing in LLM integration, workflow automation, and enterprise AI deployment. Track record of building production-ready systems that bridge IT and business operations across multinational environments. Fluent in Python, cloud platforms, and cross-functional collaboration at scale.

EDUCATION

University of Seville Sevilla, Spain
Bachelor in Software Engineering 2019 - 2023

Polytechnic University of Madrid Madrid, Spain
Master in Artificial Intelligence 2023 - 2024

EXPERIENCE

Accenture Sevilla, Spain
RPA and AI Developer March 2023 - July 2023

- Engineered a Generative AI-powered MFA system reducing unauthorized access incidents in enterprise environments.

Calimaco Madrid, Spain
Prompt Engineer & AI Developer Oct 2024 - Dec 2025

- Architected LLM-based agent pipelines using Python, LangChain, OpenAI, and Google Vertex AI, reducing manual workflow intervention.
- Designed RAG pipelines for context-aware data retrieval, improving response accuracy across use cases.
- Engineered prompt optimization frameworks improving reliability and consistency across production deployments.
- Implemented end-to-end AI monitoring and evaluation systems ensuring production-grade performance and security.

Deutz Global Service Center Badajoz, Spain
AI Developer Jan 2026 - Present

- Leading AI and IT automation strategy as sole technical bridge between Spain office and German HQ.
- Designing an AI-powered Invoice PreCheck system using LLM-based document classification and routing.
- Building Python automation pipelines via Microsoft Graph API across shared enterprise mailboxes.
- Integrating AI automation layers with SAP ERP systems using Azure and CI/CD containerized environments.

SKILLS & CERTIFICATIONS

Technical Skills:

Python · LangChain · OpenAI API · Google Vertex AI · Azure · RAG Pipelines · LLM Fine-tuning · AI Agents · Docker · CI/CD · SQL

Languages: Spanish (Native), English - C1 (CEFR), French - B2 (CEFR), Portuguese - B2 (CEFR)

Soft Skills:

Analytical Thinking, Problem Solving, Collaboration, Leadership, Time Management
